

# HYFIBRE

## SUPER FIBRE PELLET

A highly digestible pellet ideal for maintaining weight and a healthy digestive environment for horses of all ages, types and activity levels

**HyFibre is a Super Fibre pellet produced from soy hulls which have a very high content of soluble fibre, making them easily digested in the large intestine.**

Soy Hulls provide a steady source of energy and will assist in maintaining a healthy digestive environment. The high Digestible Energy content of the Soy Hulls makes them an ideal feed for horses who struggle to maintain weight.

HyFibre pellet contains 100% Soy Hulls.

There is no added molasses, cereal grains or other feed stuff.

- ✓ Suitable to feed all equines of varying ages and workloads
- ✓ No added molasses or cereal grains
- ✓ Easy to feed and cost-effective pellet
- ✓ Made with Australian grown soybeans

*Ideal for*  
**HORSES WHO  
STRUGGLE  
TO MAINTAIN  
WEIGHT**

***Feed & Supplements  
for all Equine Needs!***
